iOS and Android App Instructions

November 2015

Version 1.0

Introduction

We are excited to publish your custom branded Club Speed mobile applications to the iTunes Store® and Google Play® store.

To complete the programming, we need your assistance with the **three items below**.

Once we receive these items, we will submit the application to the iTunes Store® and Google Play® store for approval and publication. The iTunes Store® takes between 2-3 weeks and Google Play® store takes 2-3 days.

Items Needed

1. Please send over **any vector or high resolution artwork** that you have of your **venue logo or other appropriate image assets.** This will be used for the splash screen and application icons.

2. Let us know **which Facebook usernames should be given access** to see all the statistics gathered by the usage of your applications. See the section below for information on how to find your Facebook username.

3. Lastly, please send over the **proper spelling and capitalization of your venue's name**.

If you have any questions or need assistance, please reach out to us.

Thank you!

How to Find Your Facebook Username

To find your Facebook username, visit your main page when logged in. Your username will be displayed in the address bar. In this example, the username is "wratcliff".
